

Dräger X-zone® 5500 Area Monitoring

Dräger's X-zone 5500 brings a safer, more effective way to monitor hazardous gases--reinventing area monitoring. In combination with the Dräger X-am® 5000, 5100, or 5600 gas detection instruments, the X-zone® 5500 can be used for the measurement of up to six gases and extends the range of your portable gas detection technology exponentially.

Benefits

Innovative area gas monitoring

The Dräger X-zone 5500 transforms the Dräger X-am 5000/5100/5600 personal gas detection instruments into innovative area gas monitoring devices for a wide range of applications. In addition to personal air monitors carried on the body, these area gas monitors are positioned where gas hazards are expected to increase the level of safety.

Wireless fenceline

Up to 25 Dräger X-Zone 5500 can be automatically interconnected to form a wireless fenceline. The interconnection of the area monitoring devices allows for rapid establishment of safety networks for larger areas. A Dräger X-zone 5500 detecting a gas alarm transmits the alarm signal to all interconnected units. A red flashing master alarm in the mother unit detecting gas contrasts with red/green flashing alarms of the connected daughter units providing simple recognition of alarm status and the actual location of the hazard.

With the corresponding configuration, the maximum gas concentration in the monitored area is shown on the display. Combined with the display of the X-zone ID a clear containment of the hazard area is possible.

Clear warning

The illuminated green LED ring indicates that the air is free of toxic and combustible gases. Upon detection of gas hazards, the LED color changes from green to red, thus providing a clear visual warning that gas is present. Additionally, a loud and highly audible evacuation alarm is emitted. The Dräger X-zone 5500 gas entry is arranged that the gas can diffuse into Dräger X-am gas monitors from all sides.

Perfect for confined spaces

An integrated pump version allows for continuous monitoring of confined spaces and locations which are difficult to access, even from a distance of up to 150 ft.

Other benefits

- Visual 360° LED (illuminated ring)
- Audible 360°; > 108 dB in a distance of 1 m (30 ft.), 120 dB in a distance of 30 cm (1 ft.)
- Approval for Ex-Zone 0
- Daily function test and calibration not required after single on-site testing
- Individually configurable with the Dräger CC-Vision PC software (eg. alarm frequency)
- Inductive charging station: easy and convenient non-contact charging
- Continuous operation for up to 120 hours: The 24 Ah battery of the Dräger X-zone 5500 provides up to 120 hours of continuous operation – a complete working week.

Accessories

D-23626-2009

Bump test adapter

For function tests

D-27768-2009

Alarm damper

For use within bump tests

D-23631-2009

Socket

For measurements of light gases

D-23634-2009

Induction charger

Allowing easy charging

Accessories

D-1566-2010

Plug-in charger

100 - 240 V

D-10891-2009

Float probe

With 5 m or 16.4 ft. viton hose

D-1571-2010

Hose set

Consisting of water trap, dust and water filter

D-30746-2015

Dräger Configuration and Evaluation Software

Tailor-made Draeger software makes saving measurement results, professionally configuring gas detection instruments, and viewing performance data possible.

Accessories

ST-5080-2005

Calibration gas and accessories

For the safe operation of devices, applicable regulations and statutory provisions are to be met and complied with. Therefore, regular calibrations and function tests are necessary. Different systems are available so that products meet a wide range of calibration requirements.

Dräger X-am® 5000 Personal Monitor

The smallest gas detection instrument for up to five gases, the Dräger X-am® 5000 belongs to a new generation of detectors developed especially for personal monitoring. It reliably measures oxygen, organic vapors, combustible gases, and harmful concentrations of CO, H₂S, CO₂, Cl₂, HCN, NH₃, NO₂, PH₃, and SO₂ with high sensitivity to keep the user safe.

Technical Data

Dräger X-zone® 5500

Dimensions (W × H × D)	490 × 300 × 300 mm 20 × 12 × 12 in.
Weight	10 kg (22 lbs.) (24 Ah battery)
Ambient conditions	-20 – +50 °C (-4 – 122°F) Pressure 700 to 1,300 hPa Humidity 10 to 95 % r.h.
Ingress Protection	IP67
Alarm	Visual 360° LED (illuminated ring) Audible 360°; > 108 dB in a distance of 1 m (39 in.), 120 dB in a distance of 30 cm (1 ft.) Configurable alarm patterns, frequencies and volumes
Life signal	Green status display (360°), illuminated ring (LED)
Operating time	Approx. 120 h (24 Ah battery)
Charging time	Depending on sensor equipment / configuration of the life signal Approx. 14 h Flexible power supply: External 100–240 V charger (worldwide) or inductive wireless charger
Pump operation	Maximum hose length: 45 m (150 ft.)
Alarm output	Potential-free alarm contact for intrinsically safe circuits (6-pole); < 20 V to 0.25 A (0.15 A constant current); Resisting load
Radio transmission	Worldwide license-free ISM frequencies
RF approvals	Digital radio, robust and interference-free transmission up to 100 m (328 ft.) 915 MHz (USA, Canada)
Approvals	ATEX I M1 Ex ia I Ma II 1G Ex ia IIC T3 Ga II 2G Ex ia d IIC T4 Gb IECEX Ex ia IIC T3 Ga Ex ia d IIC T4 Gb Ex ia I Ma CSA/US Class I, zone 0, AEx ia IIC T3 Ga Class I, zone 1, AEx ia d IIC T4 Gb
